

Andy!

Oxidation paintings by Mambo: a series of 20 « piss-paintings » on copper painted canvas, 30x40 cm A DVD video documentation (3'10 loop) and a color photograph Contact Sheet 30x40 cm

This work is based on the Andy Warhol Oxidation Paintings series (piss on copper painted canvas). I am working with a friend who is a professional dog trainer in Rio de Janeiro. On my request he taught his dog to piss on the prepared canvas when he says « Andy ! ». The video shows the creation of the first Oxidation Painting. The series is ongoing and takes place when walking Mambo on the street or simply at home in the garden.
